CAREER OBJECTIVE

Motivated Electronics and Communication Engineering graduate with a strong foundation in VLSI design, digital electronics, Verilog/SystemVerilog, and semiconductor concepts. Eager to secure an entry-level opportunity in Physical Design or RTL Verification where I can apply my technical skills, contribute to innovative semiconductor projects, and enhance my expertise in chip design and verification.

TECHNICAL SKILLS

Core: Digital Electronics, CMOS Fundamentals, ASIC Design Flow.

HDL: Verilog, SystemVerilog.

EDA Tools: Cadence Virtuoso, NI Multisim, GNU Octave .

Programming Languages & Tools: C, C++, Python, MATLAB, Arduino IDE.

SOFT SKILLS

Leadership , Quick Learner , Problem-Solving , Teamwork , Adaptability.

EDUCATION

B.E in Electronics and Communication Engineering

2023 – 2027

Gopalan College of Engineering and Management

Average CGPA: 7.67

Pre-University Course in PCMC

2021 – 2023

New Sri Chaitanya P.U. College

Percentage: 77%

Secondary School (SSLC)

2020 – 2021

Vidya Residential English Medium High School

Percentage: 87%

PROFESSIONAL CERTIFICATIONS

VLSI Design Training – ASIC RTL to GDS Flow by VLSI Minds

- Completed hands-on training covering the complete VLSI design flow from RTL design to GDS implementation.
- Learned front-end and back-end VLSI concepts including RTL design, synthesis, physical design, and layout flow.
- Gained exposure to Verilog/SystemVerilog, CMOS concepts, and semiconductor design methodology.

LLMs to Agentic AI Systems with HPC by Intel Unnati with Cadmaxx

- Attended a technical development program covering Large Language Models (LLMs), Agentic AI concepts, and High-Performance Computing (HPC).

MEMS Technology and Its Applications by IMAPS India

- Participated in a development program focused on MEMS technology, fabrication concepts, and real-world applications.
- Learned power supply circuit design, component selection, testing, and troubleshooting.

PROJECTS

Smart Automated Ration Dispensing Machine | *Major Project (Ongoing)*

- Developing an automated ration dispensing system for accurate and efficient distribution.
- Integrating sensors, embedded hardware, and automation to minimize manual effort.

VLSI Design - SRAM memory RTL to GDS Flow

- Implemented SRAM memory design flow from RTL coding to GDSII generation using ASIC design methodologies.
- Performed RTL design, synthesis, floor planning, placement, clock tree synthesis, routing, and physical verification.
- Worked on Verilog-based RTL development and analyzed timing, area, and power optimization.

Regulated Power Supply

- Designed and implemented a 250V AC to 5V/12V DC power supply system through hands-on training.
- Learned power supply circuit design, component selection, testing, and troubleshooting.

IoT-Based Smart Portable Cold Box | *Mini Project*

- Designed a portable cold storage system with IoT-based temperature monitoring.
- Integrated temperature sensing and real-time monitoring using embedded systems.

Smart Drip Irrigation System | *Mini Project*

- Developed an IoT-based automated irrigation system using soil moisture sensors for efficient water management.
- Implemented embedded control for automatic irrigation, reducing manual intervention.

PUBLICATIONS

Augmentation of Bandwidth Reduction in Digital TV Video Payload Using Ultra-Smooth Wavelet Coding with Lifting Steps and Soft-Computing Technologies

- Published in *Swanirman Sunirmit Publications of Research (SSPR)*, ISSN: 2583-2654, Volume 6, Issue 1, March 2026.

Design and Implementation of an IoT-Enabled Thermoelectric Cold Box Powered by Hybrid Charger

- Published in *Swanirman Sunirmit Publications of Research (SSPR)*, ISSN: 2583-2654, Volume 6, Issue 1, March 2026.

ACHIEVEMENTS

- Qualified for **1st Round** of the **ISRO Robotics Challenge**, organized by the Indian Space Research Organisation.
- Won **2nd Prize** in **TECH NEXUS 2025 – Project Expo**, organized by Dr. T. Thimmaiah Institute of Technology.
- Won **2nd Place** in **GETOCS V6.0 2026 – Paper Presentation and RC Car Race**, organized by Gopalan College of Engineering and Management.

EXTRA-CURRICULAR ACTIVITIES

- Served as a Volunteer and Organizer for **WRO India 2026 (World Robot Olympiad India)**, assisting in event management, participant coordination, and competition logistics.
- Participated in **Yuktikalpa - 2025 Tech Expo**, organized by BMS College of Engineering.
- Participated in **AIKYA - 2025 Project Expo**, organized by East Point College of Engineering and Technology.
- Co-ordinator of the **Institution's Innovation Council (IIC)**, actively involved in organizing innovation, technical, and entrepreneurship programs.
